

LORD ARCHER

Jeffrey Archer has topped the bestseller lists around the world, with sales of over 275 million copies in 97 countries and in more than 37 languages. He gained a Blue in Athletics at Oxford and ran the 100 yards in 9.6 seconds for Great Britain in 1966. Jeffrey has served 27 years as a Member of the House of Lords.

Lord Archer is an art collector and amateur auctioneer, conducting around 20 charity auctions a year, which last year raised just over £3m for good causes. With his help, the Live Auction at the 2018 Chain of Hope Gala Ball raised over £2 million.

Chain of Hope is grateful to have Lord Archer as an Ambassador who has been involved with the Charity for over 10 years.

THE BOUNDARIES OF OUR REALITY BY THE CONNOR BROTHERS

Maddox Gallery is thrilled to offer a lucky winner the opportunity to own this unique piece of art, created by renowned British artists, The Connor Brothers. The Connor Brothers is the pseudonym for British artists James Golding and Mike Snelle. The duo came to prominence in 2012 and for several years maintained their anonymity by using a fictional biography. Their identities were revealed in 2014 in a major feature by Mick Brown in The Telegraph magazine, allowing them to undertake more ambitious projects.

The Connor Brothers have exhibited internationally from New York, Sydney and Dubai to London, Hong Kong and Berlin. Their work frequently appears at major auction houses where a record price was achieved in 2016. Works can also be found in major public and private collections including The Victoria and Albert Museum, The Penguin Collection and both the Omar Koch and Niarchos Collections. This unique one off piece is a hand embellished work on paper. We are thrilled to be auctioning this piece this evening, especially given the positive and aspirational message of the piece which so aptly reflects Chain of Hope's ambitions to deliver hope and joy in even the hardest of circumstances.

MEND MANY HEARTS – SPONSOR A MISSION £50,000

Your gift could help fly teams of heart specialists on a medical mission to treat up to 20 patients, deliver essential training and provide vital medical equipment needed for operations.

Chain of Hope carefully recruits and compiles teams of world-leading cardiac surgeons, cardiologists, specialist physicians, nurses and technicians who volunteer their time to share their skills in developing countries.

Our medical volunteers deliver training to the local healthcare professionals so that in the future they can operate independently. All medical team members are experts in their field and donate their time entirely free of charge to assist in the development of these programmes.

Where needed, your gift will help to fund the equipment necessary to perform life-saving cardiac operations. Each medical mission costs £50,000.

T&Cs – your donation will be allocated towards treatment, delivery of training and provision of equipment.

SPONSOR VITAL MEDICAL EQUIPMENT - £10,000

Many of the centres we work in, lack the equipment and infrastructure required to carry out heart surgery on their young population.

Your donation could provide vital medical equipment needed to provide hospitals in developing countries with the necessary equipment to perform open-heart surgery.

One example of equipment that your donation could sponsor is a heart monitor. A heart monitor is an essential piece of equipment used in both Operating Theatres and Intensive Care Units. Every patient undergoing surgery requires a heart monitor.

This equipment and other pieces like it, are crucial to Chain of Hope's aim of building sustainable cardiac centres in the countries where we work.

HELP MEND A LITTLE HEART - £5,000

It is estimated that 1 baby in every 100 is born with a congenital heart defect and in developing and war-torn countries, these babies are not able to access the care that they deserve. A gift of £5,000 will enable us to treat a child in one of our partner hospitals, giving hope to their family for a brighter future.

Since the last Gala Ball, Chain of Hope treated nearly 300 children in need of urgent cardiac care including five year old Adrian, from Bolivia.

Adrian was the first child to be treated from Bolivia by Chain of Hope. After his life-saving operation, his father Kevin says that his family's life will be changed forever because of Chain of Hope.

'Thank you for helping other people, for giving help to those who need it most. My son can now enjoy life, knowing that noble people of heart and soul helped him to live.'

Your contribution of £5,000 could help us to mend the hearts of more children like Adrian and bring joy to families from developing and war-torn countries.
